## Professional Summary

Full-Stack Web Developer with proven experience delivering scalable, high-performance, and user-centric web applications using React.js, Next.js, Laravel, and PHP. Demonstrated success improving system performance, optimizing API response times, and building reusable component architectures across enterprise, ERP, and e-commerce platforms in agile environments, with measurable impact on speed, maintainability, and development efficiency. Experienced in building scalable Laravel backends using Repository Pattern, API Resources, Form Requests, Policies, Enums, and Spatie packages.

## Work Experience

**Full-Stack Web Developer — Webly Tech** | Cairo, Egypt | Aug 2024 – Jan 2026

- Implemented clean backend architecture using Repository & Service patterns to separate business logic from controllers.
- Developed and maintained full-stack features using Vue.js, Nuxt.js, Laravel, and MySQL.
- Improved page load speed by **30%** through performance optimization and caching techniques.
- Used Laravel API Resources to standardize and structure API response formatting.
- Applied Form Request validation and Policies to enforce security and authorization rules.
- Utilized PHP Enums to organize business logic and improve code maintainability.
- Integrated Spatie packages (Permission, Media Library, Activity Log) for role management and content handling.

## Key Projects

- Lure E-Commerce Platform — marketplace system for products, vendors, checkout, and orders.
- Nexa Events System — seat reservation, digital ticketing, and payment workflow.
- Farm Flex ERP System — dashboards for inventory, suppliers, employees, and operations.

## Freelance & Personal Projects

- Restaurant Management & Table Reservation System — React & Laravel (orders, booking, admin dashboard). Implemented role-based access control and modular backend structure using Repository Pattern and Spatie Permission.
- E-Commerce Website — React.js, REST API, Bootstrap.
- Prayer Times App — React.js, MUI.
- Weather App — React.js, OpenWeather API.
- Gemini AI App — React.js, Gemini API.
- Online Courses Platform — React.js, MUI.
- Movies Blog — React.js, Movie API.
- Cosmetics Store — Next.js, Tailwind CSS.
